

### Hough High School Band Practice (HOMEWORK) Record

Every student in the Hough High School Band is expected to turn in a practice record each week in which they record the minutes practiced outside of class. Personal (At-Home) practice is the ONLY way a student can progress in instrumental music. A minimum of 100 minutes per week is required. This practice requirement is considered homework from the ensemble class. To receive full credit the practice record must have the breakdown of minutes practiced through out the week and a parent's FULL signature. Practice records will not be accepted after each Wednesday. If a student is absent, the practice record is due on the first day the students returns to school. Additionally, all practice records must be completed in INK with NO MISTAKES. Each day must have an amount indicated BEFORE the parent signs the form. Credit will only be given to practice records that meet the requirements outlined above.
